Elaine, thanks.

Ginger and I have been trying to get the memo signed but Howard has been in an all day meeting.

Judy,

The plan would be to continue to review and accept projects that address areas of regional priority throughout the duration of the pilot as well as with the permanent program. The information is communicated to employees in the Launch email currently in the approval process and will continue to be communicated/encouraged as we move forward throughout pilot.

Thank you,

Elaine M. Robles

Sound good to me. I was wondering if there was a close one that was ranked #11. I'm fine with 9.

Elaine, will we stay at 9 for the duration of the pilot? With the permanent program, I understand that there will be an ongoing process to continuously add projects.

Without talking to the ARAs I don't recommend adding a "low" priority project. I was in the meeting with the ARAs and they felt pretty strongly those projects did not meet our criteria.

Thanks.

Sandy & Elaine:

Bill Daniels has withdrawn the fleet project because much of it is now being done by the ARA community through the lead region for management. He notified Bridget yesterday.

Is there another project that you recommend replacing it so that we have ten projects posted? I was on leave when the ARAs met to rank and select the projects.

Thanks.
